CAREER SUMMARY

Motivated Computer Science student with a **strong** foundation in **programming** and **full-stack development** **interactive** and **responsive user interfaces** . Strong problem solving skills with foocus on writing clean , efficient , and maintainable code . Passionate about creating **scalable user-centric web applications** and continuously **improving** my **technical expertise** and **learning new technologies** .

ACADEMIC QUALIFICATIONS

Gyan Ganga Institute of Technology and Sciences Bachelor of Technology Computer Science and Engineering CGPA: 7.61	Jabalpur, Madhya Pradesh 2022 - 2026
Govt.Higher Secondary school khmariya Higher Secondary (12 th) 80.2%	Narsighpur, Madhya Pradesh 2022
Pragati Public Higher secondary school Secondary (10 th) 74.0%	jabalpur, Madhya Pradesh 2020

TECHNICAL SKILLS

Programming Languages: java, C++, python
Core Concepts: OOP, DBMS, DSA
Frontend: HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React.js
Backend & Databases: Node.js, Express.js, Mongoose, MongoDB, MySQL
Tools & Platforms: VS Code, GitHub, Git, Vercel,

ACADEMIC PROJECTS

Wanderlust - Explore, Stay, Experience	April 2025 - June 2025
- Designed and developed a full-stack accommodation booking platform inspired by Airbnb using the MERN stack , (MongoDB , Express.js , React/Node.js) enabling users to explore, list, and manage rental properties with a scalable architecture. - Implemented core features including authentication & authorization , dynamic property listings, advanced filtering , image uploads via Cloudinary integration , and secure RESTful APIs for seamless client-server communicaton . Enhanced platform functionality by integrating location-based services (maps/grocoding) , role based access control (host/user) , and robust backend validation, ensuring data consistency, security , and improved user engagement. Built an interactive user experience with responsive UI , real - time data rendering , and optimized state management, allowing user to perform CRUD operation on listings , reviews , and bookings efficiently. - Project Link : https://wanderlust-majorproject-6-6mkp.onrender.com/listings	
Mediconnect - Smart Heathcare Interaction Platform	October 2025 - December 2025
Developed responsive and user-friendly frontend interfaces using modern web technologies , enabling seamless interaction between patients and heathcare providers across devices. Implemented key UI componented for features like appointment booking , doctor discovery , and heathcare service navigation , improving overall user experience and accessibility. Collaborated with backend team to integrate REST APIs and dynamically render real-time data such as doctor listings appointment details, and user inputs. Optimized UI/UX and performance by improving page responsiveness, layout consistency, and user flow, ensuring smooth navigation across the platform. - Project Link: https://mediconnect-xp3k.onrender.com/	

KEY ACHIEVEMENTS

- **DSA Problem Solving** : Solved 150+ Data Structures and Algorithms problems on **Leetcode** .
- **Certification** : CCNA.
- **Certification** : Full Stack Development
- **Certification** : DSA with Java
